Introduction

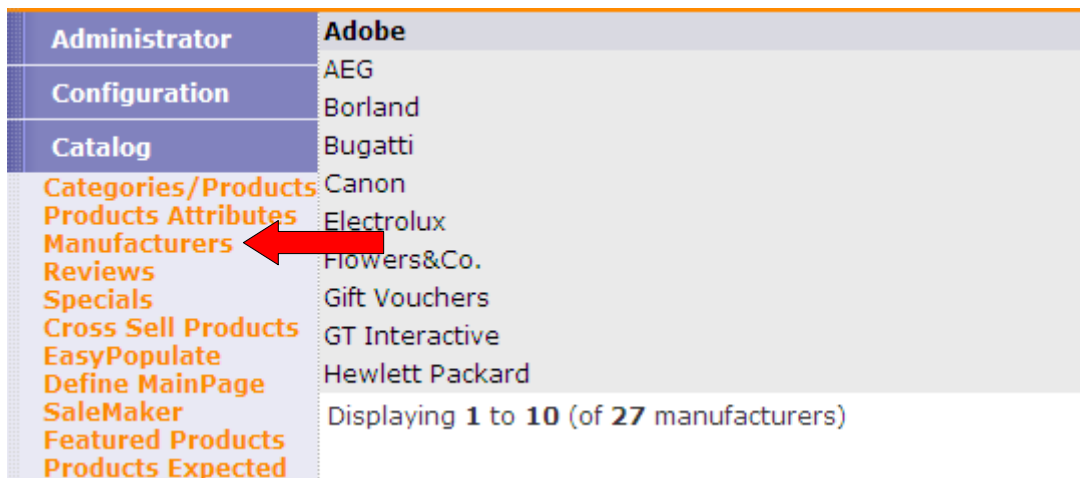

A list of manufacturers can be added to the web-store, and each manufacturer can be assigned to any product in the shop. This allows customers to search for the products by manufacturers on the frontend.

Creating A New Manufacturer

1. From Admin Panel of the web-store click the **Catalog** link.

2. Select the **Manufacturers** item.

3. Click the **Insert** button below the list of Manufacturers.

4. In the **Manufacturer's Name** field on the right, specify a name of a manufacturer.

The Manufacturer's name will be displayed to customers in one and the same text regardless of the language currently selected.

The screenshot shows a form for editing a manufacturer. The 'Manufacturers Name' field is highlighted with a red box and contains the text 'Adobe'. Below it is the 'Manufacturers Image' field, which is empty and has a 'Browse...' button next to it. The current image name is 'adobe.gif'. There are two checkboxes: 'Remove manufacturers image?' and 'Delete manufacturers image?'. Both are unchecked.

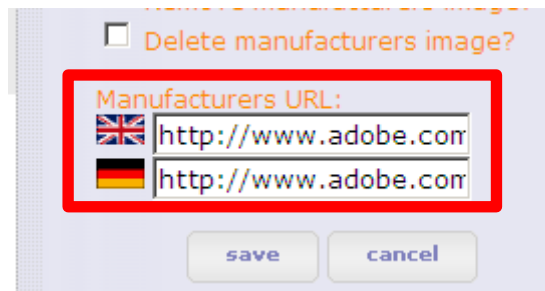

5. Click the **Browse...** button adjacent to the **Manufacturer's Image** field and upload an image (typically it is the Manufacturer's logo). This image is used to represent the Manufacturer to customers and displayed in the **Manufacturers Info** box while a user is on the product info page.

The screenshot shows the same form as above. A red arrow points to the 'Browse...' button next to the 'Manufacturers Image' field.

This can be especially helpful if an image is more recognizable than the actual name of Manufacturer.

6. In the **Manufacturer's URL** field, specify an URL to direct a customer to the Manufacturer's website. The website URL can be different for different languages installed in the shop.

A customer can visit the manufacturer's website by clicking in the [<Manufacturer's Name> Homepage](#) link in the **Manufacturers Info** box.

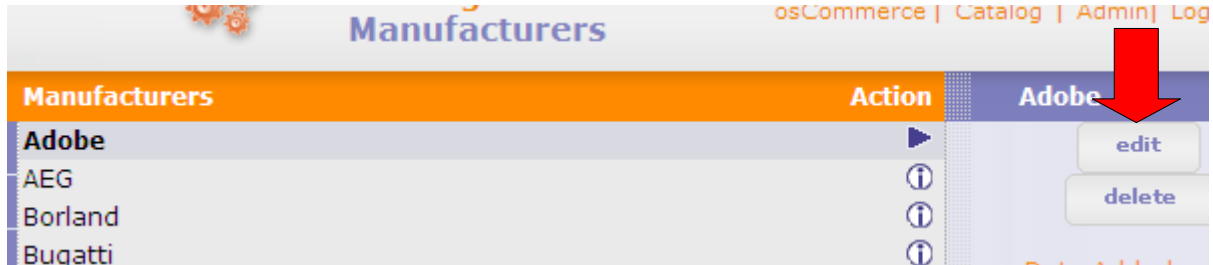

7. Click the **Save** button to save a new manufacturer.

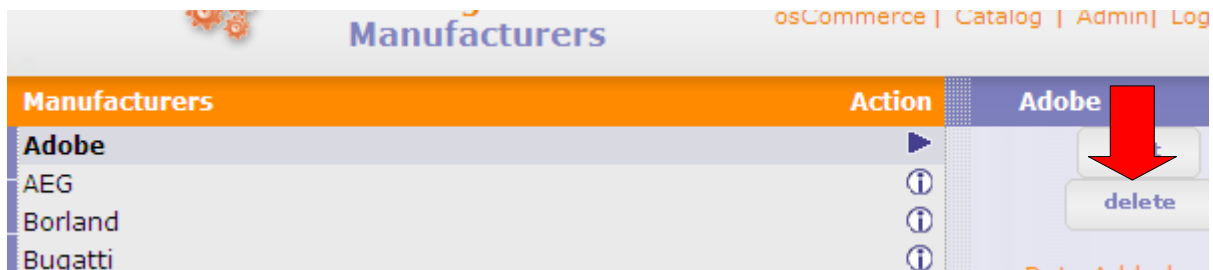

Note: You can also configure the Manufacturers listing from the Configuration > Minimum/Maximum Values sections.

Editing/Deleting Manufacturer

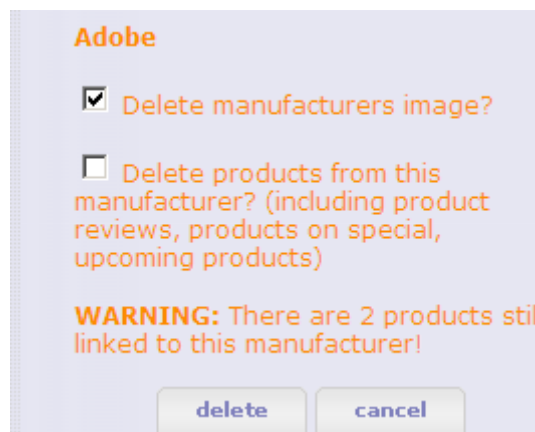

You can edit manufacturer's information by selecting a manufacturer's name in the list and clicking the **Edit** button on the right.

You can delete a manufacturer by selecting its name in the list and clicking the **Delete** button on the right.

You can select the following options here: **Delete manufacturer's image** and/or **Delete products from this manufacturer** (including product reviews, products on special, upcoming products). Select appropriate checkbox(es) and click the **Delete** button again.

Please be careful while deleting a manufacturer, because many products could be assigned to it.
