Introduction

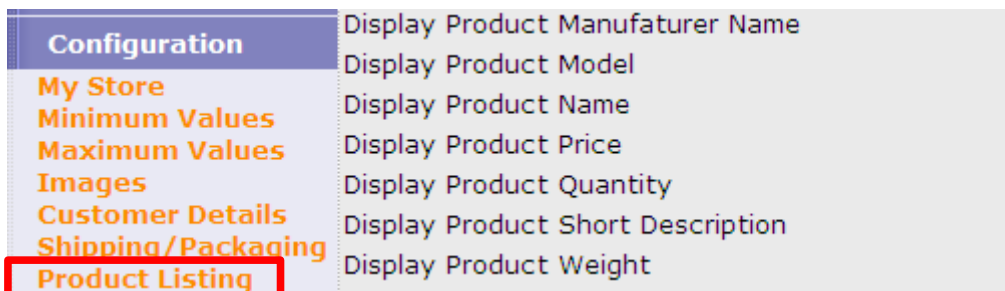

The Product Listing section of Admin Panel allows setting up various columns on product listings. The columns are sorted from left to right on the Product Listing page according to the "value" specified in this section. If a value of "0" is set, the column will be disabled on frontend.

Updating Display Product Image

1. Go to the Admin Panel and click the **Configuration** link.

2. Click the **Product Listing** link.

3. Since the **Display Product Image** item is highlighted, click the **Edit** button on the right.

- Specify 1 in the field to display product's image on product listing.
