Connecting Ecommerce and ERP

Version 1.0

Document created on 20 April 2009

The Robots.txt module optimises or creates your own Robots.txt file and writes special rules of indexing your pages by Search Engines. Our special robots.txt file suits to every osCommerce site! It allows indexing only important pages: products, information, categories, and disables such pages as shopping cart and login.

### The Robots.txt file looks like this:

```
User-Agent: *
Allow: /
Disallow: /account_edit_process.php
Disallow: /cookie_usage.php
Disallow: /checkout_address.php
Disallow: /checkout_shipping.php
Disallow: /account_history.php
Disallow: /checkout_payment.php
Disallow: /checkout_shipping_address.php
Disallow: /order_info.php
Disallow: /checkout_confirmation.php
Disallow: /address_book_process.php
Disallow: /create_account_process.php
Disallow: /account.php
Disallow: /login.php
Disallow: /order_info_process.php
Disallow: /create_account.php
Disallow: /shipping.php
Disallow: /checkout_payment_address.php
Disallow: /create_account_success.php
Disallow: /checkout_process.php
Disallow: /tell_a_friend.php
Disallow: /redirect.php
Disallow: /password_forgotten.php
Disallow: /account_history_info.php
Disallow: /info_shopping_cart.php
Disallow: /logoff.php
Disallow: /checkout_success.php
Disallow: /order_info_check.php
Disallow: /account_edit.php
Disallow: /product_notifications.php
Disallow: /popup_search_help.php
Disallow: /address_book.php
Disallow: /shopping_cart.php
Disallow: /popup_image.php

#Sitemap:
```

There are pages of website, which will NOT be indexed by Search Engines, because these are **Disallowed**:

```
Disallow: /account_edit_process.php
Disallow: /cookie_usage.php
Disallow: /checkout_address.php
Disallow: /checkout_shipping.php
```

All other pages are allowed for indexing.

**Note:** There also can be the Sitemap link in the file, if any.
